CHAMP Study REDCap Workflow (1.26.23)

The basic research workflow for the CHAMP Study, which indicates what REDCap forms to use and when to use them.

IF SCREENING FOR OUD.
Patient attends scheduled clinical visit or self-refers for opioid use care.
Patient **screens positive on NMA or the SOS.**
NMA ≥ 4 for prescription **AND/OR** street opioids, **SOS >0**.

PATIENT IS REFERRED BY PCP.
Patient with known or probable OUD is referred by provider.

Patient **may or may not** screen **positive on NMA or the SOS.**

Clinic Task

CHAMP UW Research Team Task

Regardless of NMA or SOS score:

ALL patients advance for DSM-5 Diagnostic Criteria Evaluation and screening on MHD Screeners

Clinic staff enters screening/eligibility data into the **REDCap** **Eligibility Form** for all patients being referred to CHAMP (regardless of NMA/SOS score)

Clinic staff consents eligible and interested patients for CHAMP using the **REDCap Consent Tracking Form** and either the **e-Consent Form** or the **paper Consent Form**

Clinic staff immediately registers patient in the **REDCap Patient Registration Form** - Patient receives a Study ID#

BHCM enters patient in the **CHAMP CMTS** (add Study ID)

BHCM reminds patient to complete the **Patient Baseline Survey** as soon as possible

Patient receives 6 months of assigned treatment protocol, either *Intervention* or *Control*

Patient completes baseline survey w/in 2 weeks of Consent Date.
Patient Receives Gift Card from UW

Patient completes 3-Month Survey w/in 30 days of 3-months participation.
Patient Receives Gift Card from UW

Patient is **DISCHARGED** from CHAMP

Patient completes 6-Month Survey w/in 30 days of 6-months participation.
Patient Receives Gift Card from UW
